

QUALITY OF LIFE FOR ALL is a unique experience where

The FASGI First Annual Gala Auction Event: a voice for all those who do not have a voice. FASGI does not simply provide a warm bed and a meal. FASGI takes in people and gives them an identity, with an address, training, rehabilitation, medical care, case management and mandatory savings plans. FASGI takes individuals by the hand and prepares them to be productive members of society, to be employed by corporations and accepted into college. FASGI has distributed more than 8,000 brown bags, to senior citizens for this year. Lastly, FASGI is a proctor of Filipino American Culture and a major crusader for Filipino American Veterans rights.

The Gala will allow FASGI to take our facility from 20 beds/residences to 27. In addition, we plan to extend the period in which individuals can stay at the facility to complete their rehabilitation and social reintegration process. We also plan to launch our OpenHealth Project, a health clinic; to be able to deliver much needed medical services to our residents as well as older adults from throughout the launch a non-partisan, statewide voter registration campaign to register 57,000 Filipino American citizens to vote in the 2008 general election.
